

# Zain Mehmood

Full Stack Developer

[zainmehmood986@gmail.com](mailto:zainmehmood986@gmail.com) | [linkedin.com/in/zainmehmood](https://linkedin.com/in/zainmehmood) | [github.com/Zaingithubit](https://github.com/Zaingithubit) | Islamabad, Pakistan

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), HTML5, CSS3, SQL

**Frontend:** React.js, Next.js, Redux, Material UI, Bootstrap, jQuery, Responsive Design

**Backend:** Node.js, Express.js, GraphQL, RESTful APIs

**Databases:** MongoDB, NoSQL

**Tools & Technologies:** Git, GitHub, npm, Webpack, Agile/Scrum, Cross-browser Compatibility

**Core Competencies:** UI/UX Optimization, Performance Tuning, Code Quality, Problem Solving

## PROFESSIONAL EXPERIENCE

### Associate Software Engineer

May 2024 – Present

*Pixako Technologies (Pvt.) Ltd*

*Islamabad, Pakistan*

- Architected and developed 5+ production-grade web applications using React.js and Next.js, serving 10,000+ monthly active users with 99.9% uptime
- Optimized application performance by 40% through code splitting, lazy loading, and implementing efficient state management with Redux, reducing page load times from 3.2s to 1.8s
- Built scalable RESTful and GraphQL APIs using Node.js and Express.js, handling 50,000+ daily requests with sub-200ms response times
- Implemented responsive, pixel-perfect UI components using Material UI and Bootstrap, achieving 100% mobile compatibility across iOS and Android devices
- Collaborated with cross-functional teams of 8+ developers using Git workflows and Agile methodologies, reducing deployment time by 30%
- Engineered reusable component libraries that reduced development time by 25% and improved code maintainability across 3 major projects

### Web Development Intern

November 2023 – May 2024

*Pixako Technologies (Pvt.) Ltd*

*Islamabad, Pakistan*

- Developed full-stack features for client projects using React.js, Node.js, and MongoDB, contributing to 3 successful product launches
- Refactored legacy jQuery codebase to modern React components, improving code quality and reducing bugs by 35%
- Implemented GraphQL queries and mutations, reducing over-fetching and improving API efficiency by 45%
- Conducted code reviews and pair programming sessions, mentoring 2 junior developers on best practices

### Intern Developer

August 2023 – August 2025

*DevArr*

*Islamabad, Pakistan*

- Built interactive web applications using JavaScript, HTML5, and CSS3, focusing on clean code architecture and user experience
- Integrated third-party APIs and services, enhancing application functionality and delivering features 20% ahead of schedule
- Debugged and resolved 50+ production issues, ensuring smooth user experience and maintaining application stability

## KEY PROJECTS

### E-Commerce Platform | *Next.js, Node.js, MongoDB, Stripe API*

2024

- Engineered a full-stack e-commerce solution with server-side rendering, achieving 2.5s initial page load and SEO score of 95+
- Integrated secure payment processing with Stripe API, handling transactions worth \$50,000+ monthly volume
- Implemented advanced features including real-time inventory management, shopping cart, and user authentication with JWT

### Real-Time Analytics Dashboard | *React.js, GraphQL, Chart.js, WebSockets*

2024

- Developed a data visualization dashboard processing 100,000+ data points in real-time with WebSocket connections
- Optimized GraphQL queries with pagination and caching, reducing database load by 60% and improving response times

## EDUCATION

---

**Allama Iqbal Open University**  
*Bachelor of Science in Computer Science*

December 2020 – July 2023  
*Islamabad, Pakistan*

## ACHIEVEMENTS & CERTIFICATIONS

---

**Performance Excellence:** Reduced application load times by 40% and improved Core Web Vitals scores across multiple projects

**Code Quality:** Maintained 90%+ code coverage through comprehensive testing and adherence to clean code principles

**Continuous Learning:** Actively contribute to open-source projects on GitHub and stay updated with latest web technologies
